**INDEPENDENT AUDITORS' REPORT**

To the Members  
Jackson Financial Group, Inc.  
440 S. LaSalle, Ste. 3450  
Chicago, IL 60605

We have audited the accompanying statement of financial condition of Jackson Financial Group, Inc. (an Illinois corporation) as of December 31, 2006 and the related statements of income, changes in ownership equity, changes in liabilities subordinated to claims of general creditors, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with U. S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance that the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial condition of Jackson Financial Group, Inc. as of December 31, 2006, and the results of its operations and its cash flows for the year ended in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained on pages 13 through 17 is presented for the purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**JACKSON FINANCIAL GROUP, INC.**  
**(an Illinois corporation)**

**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2006**

**NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES**

Jackson Financial Group, Inc. ("the Company"), is an Illinois corporation, formed on September 19, 2002 and commenced operations on January 1, 2003. The Company is a broker/dealer registered with the Securities and Exchange Commission and is a member of the Chicago Board of Options Exchange and operates under a joint back office arrangement with PAX Division of Merrill Lynch Professional Clearing Corporation ("PAX"). As such, it does not effect transactions other than with brokers or dealers, effect transactions in unlisted options, or carry customer accounts. The Company primarily engages in the proprietary trading of exchange-traded equity securities, equity options, index options, and commodities.

**Basis of Accounting**

The Company's financial statements are prepared on the accrual basis of accounting, which conforms to U.S. generally accepted accounting principles. Substantially all of the Company's assets and liabilities are carried at fair market value.

**Cash Equivalents**

For the purposes of the statement of cash flows, the Company's policy for defining cash equivalents are certificates of deposits and U.S. government obligations with an original maturity date, when acquired by the Company, of less than 90 days and those securities registered under the Investment Company Act of 1940 which are comprised of cash and other short-term debt instruments and commonly referred to as "money market funds."

**Accounts Receivable**

The Company has not accrued an allowance for non-collectible receivables because all trade receivables at year-end are collected the following month. Management is of the opinion that all receivables are fully collectible.

**Property and Equipment**

The cost of property and equipment is depreciated over the estimated useful lives of the related assets. Depreciation has been computed using both straight-line and accelerated methods. The accelerated method has been used for tax reporting purposes. Depreciation computed under U.S. generally accepted accounting principles do not differ materially.

Total cost of property and equipment at December 31, 2006 was \$11,670 with the related accumulated depreciation totaling \$11,050.

**Accounting Estimates**

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

**Concentration of Credit Risk**

The Company maintains its cash in bank deposits, which, at times may exceed federally insured limits of \$100,000. At December 31, 2006, the Company's cash in bank deposits did not exceed federally insured limits. The company does not believe its cash balances are at substantial credit risk.

## NOTE 2 - SECURITIES TRANSACTIONS

Proprietary securities transactions in regular-way trades are recorded on the trade date, as if they had settled. Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a trade date basis. Commissions and related clearing expenses are recorded on a trade-date basis as securities transactions occur. The difference between trade date and settlement date accounting is not material to the Company's financial position at December 31, 2006, nor material to the results of its operations for the period then ended. All marketable securities are marked-to-market and carried at fair market value.

Amounts receivable and payable for securities transactions that have not reached their contractual settlement date are recorded net on the statement of financial condition.

Under SFAS 115, securities that are bought and held principally for the purpose of selling them in the near term (thus held only for a short time) are classified as trading securities. Trading generally reflects active and frequent buying and selling, and trading securities are generally used with the objective of generating profits on the short-term differences in price. The Company classifies all securities as trading securities.

## NOTE 3 - RECEIVABLE FROM AND PAYABLE TO BROKERS OR DEALERS

Amounts receivable from and payable to brokers and dealers at December 31, 2006 consist of the following:

	<u>Receivable</u>	<u>Payable</u>
Due from clearing firm - clearance	\$4,278,313	\$ 0
Due from clearing firm - other	56,246	36,987
Total	<u>\$4,337,587</u>	<u>\$ 36,987</u>

## NOTE 4 - FINANCIAL INSTRUMENTS

Derivative financial instruments used for trading purposes, principally exchange-traded options are carried at quoted market value:

Derivatives used for economic hedging purposes include purchased options. Unrealized gains or losses on these derivative contracts are recognized currently in the statement of income as trading revenues. The Company does not apply hedge accounting as defined in FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as all financial instruments are marked to market with changes in fair values reflected in earnings. Therefore, the disclosures required in paragraphs 44 and 45 of the Statement are generally not applicable with respect to these financial instruments.

Fair value of options contracts are recorded in securities owned or securities sold, not yet purchased, as appropriate. Premiums and unrealized gains and losses for written and purchased option contracts are recognized gross in the statement of financial condition. The following table discloses the approximate fair values of derivative financial instruments held for trading as of December 31, 2006, as well as the approximate quarterly average fair values of derivatives held during 2006:

	<u>December 31,</u> <u>2006</u>	<u>Average during</u> <u>2006</u>
Equity and index options assets	\$ 827,030	\$ 923,790
Equity and index options liabilities	3,129,822	1,769,341

## NOTE 5 - FINANCIAL INSTRUMENTS WITH OFF BALANCE SHEET RISK

In the normal course of business, the Company engages in trading activities. In connection with these activities, unsettled trades and sales of securities not yet purchased may expose the Company to off-balance sheet credit risk as a result of market fluctuations. The Company enters into various transactions involving derivatives and other off-balance sheet financial instruments. These financial instruments include exchange-traded options, and securities purchased and sold on a when-issued basis (when-issued securities). These derivative financial instruments are used to conduct trading activities, and manage market risks and are, therefore, subject to varying degrees of market and

credit risk. Derivative transactions are entered into for trading purposes or to economically hedge other positions or transactions.

When-issued securities provide for the delayed delivery of the underlying instrument. As a writer of options, the Company receives a premium in exchange for giving the counterpart the right to buy or sell the security at a future date at a contracted price. The contractual or notional amounts related to these financial instruments reflect the volume and activity, but do not reflect the amounts at risk. The credit risk for options and when-issued securities is limited to the unrealized market valuation gains recorded in the statement of financial condition. Market risk is substantially dependent upon the value of the underlying financial instruments and is affected by market forces such as volatility and changes in interest and foreign exchange rates.

In addition, the Company has sold securities that it does not currently own and will therefore be obligated to purchase such securities at a future date. The Company has recorded these obligations in the financial statements at December 31, 2006, at market values of the related securities and will incur a loss if the market value of the securities increases subsequent to December 31, 2006.

The Company's trading activities are transacted on a cash basis. In connection with these activities, the Company executes transactions involving the sale of securities not yet purchased. Such transactions may expose the Company to significant off-balance-sheet risk in the event capital reserves are not sufficient to fully cover losses that may incur. The Company seeks to control the risks associated with its trading activities by monitoring trading markets daily. In addition, the Company establishes credit limits for such activities and monitors compliance on a daily basis.

#### **Concentrations of Credit Risk**

The Company is engaged in various trading and brokerage activities with counter parties, primarily broker/dealers. In the event counter parties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counter party or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counter party.

#### **NOTE 6 – NET CAPITAL REQUIREMENTS**

At December 31, 2006, the Company's net capital as computed pursuant to the rules of the Chicago Board of Options Exchange was \$4,223,880 which was \$4,123,880 more than the minimum net capital requirement of \$100,000.

#### **NOTE 7 – INCOME TAXES**

The Company has elected to be taxed as an S-Corporation; therefore, the income or loss of the Company flows directly to the shareholders and any income tax consequences are reportable in the income tax returns of the shareholders.

#### **NOTE 8 – OPERATING LEASES**

The Company leases its office on a month-to-month basis. Office lease expense totaled \$48,000 for the year ended December 31, 2006.

The agreement provides for termination upon sixty days notice by either party. The future minimum payments under this agreement for the year ending December 31, 2006 are \$8,000.

#### **NOTE 9 – COMMON STOCK**

Total common stock of the company as of December 31, 2006 is as follows:

Authorized and issued	2,000
Retired	1,000
Issued and outstanding	1,000

#### **NOTE 10 – INVESTMENT IN CLEARING COMPANY**

The Company has Joint Back Office ("JBO") clearing agreement with PAX Division of Merrill Lynch Profession Clearing Corporation ("PAX"). The agreement allows JBO participants to receive favorable margin treatment as compared to the full customer margin requirements of Regulation T. As part of this agreement, the Company has invested \$50,000 in a PAX partnership interest. The Company's investment in PAX is reflected in "Securities and/or other investments"

in the statement of financial condition. This investment is carried at cost, and under the agreement, would be returned to the Company in the event the JBO arrangement is terminated, less any accrued costs or expenses.

**NOTE 11 – MEMBERSHIP SEAT**

The Company maintains a membership seat on the Chicago Board of Options Exchange ("Exchange") that is carried on the Statement of Financial Position at cost of \$365,000.

**NOTE 12 – OTHER REVENUE AND EXPENSES**

Other revenue as follows:

Dividends	\$ 41,278
Interest	391,647
Commission rebates	5,092
Gain on sale	<u>141,386</u>
Total	<u>\$ 579,403</u>

Other expenses as follows:

Corporate	\$ 93,786
Communication and data costs	25,937
Dividends	36,389
Occupancy	48,000
Professional fees	<u>24,038</u>
Total	<u>\$ 228,150</u>

**INDEPENDENT AUDITORS' REPORT ON INTERNAL ACCOUNTING CONTROL  
REQUIRED BY THE SECURITIES AND EXCHANGE COMMISSION RULE 17a-5**

To the Members  
Jackson Financial Group, Inc.  
440 S. LaSalle, Ste. 3450  
Chicago, IL 60605

In planning and performing our audit of the financial statements of Jackson Financial Group, Inc. for the year ended December 31, 2006, we considered its internal control structure, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

We also made a study of the practices and procedures followed by the Company in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a) (11) and the procedures for determining compliance with the exemptive provisions of rule 15c3-3. We did not review the practices and procedures followed by the Company in making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by rule 17a-13 or in complying with the requirements for prompt payment for securities under section 8 of Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer activities.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with U.S. generally accepted accounting principles.

Jackson Financial Group, Inc.

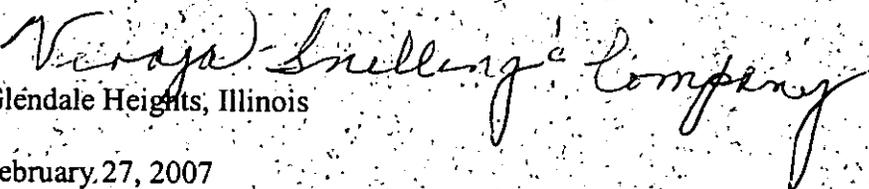

Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2006, to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, the Chicago Board Options Exchange, and other regulatory agencies which rely on Rule 17a-5(g) under the Securities and Exchange Act of 1934 and should not be used for any other purpose.

  
Glendale Heights, Illinois
